MILLIWAYS INCORPORATED

PART FOUR

BY

VICTOR BRIGHT

One week later , BRIGHT, VILMEO, MUSGRAVE, and SANCHEZ drive along a highway and then into a loose gravel car park of ASYLUM in the Mojave Desert . A facility for good old boys and retired managers making a contribution to Global Society.

VILMIO After our successful mission to the Pharaoh Islands I expect a hero's welcome .

She turns off her electric Renault Clio and turns to her front seat passenger.

MARIA SANCHEZ I phoned it in so Stephen Taylor is waiting for us .

MAX VILMIO Have you told him that you're coming back with us.

VICTOR BRIGHT And that we need Officer Musgrave here.

MARIA SANCHEZ Luckily Stephen says that they're waiting for the research from The Pharaoh Islands and they don't mind us flunking out and leaving .

MAX VILMIO Don't they know that Maria is a ruton hybrid .

VICTOR BRIGHT Max you got rid of the body before OLIVER MOSS turned up and took us to SEABREEZE ACRES .

MAX VILMIO Put it in a SKIP in black plastic bags .

VICTOR BRIGHT Then I'm for getting back to KALDOR .

MAX VILMIO I don't want COMPANY CENTRAL breathing down my neck when i get there .

They clamber out of a MINI METRO, and canter over the hot gravel towards the sentry post of a high wire fence separating ASYLUM from the state Highway .

Marks Greenstreet is playing table tennis when he gets a call on his wrist communicator and leaves the sports Wing .He goes down a wide grey laminated concrete corridor with red windows evenly spaced to a blue and pink lift then ascends three floors, to the throne room where morning assembly has just finished .The residence have parted into their respective interest groups to save humanity and at the communication wing he finds REBECCA HOLDEN **[Grey pleated skirt cream blouse,Green cardigan]**

MARK GREENSTREET Rebecca, can you do your usual induction for Mr Bright and MR Vilmio ..

REBESSA HOLDEN Yeah sure Mark I wish this crisis would be over because I'm having to change procedures for my induction all the time .

MARK GREENSTREET Sorry I know you're getting ready for your hosting SPHERE where relying on you .

Rebecca Holden pads out of the communications Wing and goes to reception in blue and pink pastel shades where a ZEBRA SQUAD OFFICER in forest green uniform with canvas arm patches and shoulder pads is stationed .

REBECCA HOLDEN James can you let BRIGHT and VILMIO

JAMES SWIFT Gonna enjoy the show .

The shutters open and BRIGHT and VILMIO walk straight in followed by Simon musgrave,Maria Sanchez.

REBECCA HOLDEN Welcome back to the asylum I'm glad you had a successful mission to the Pharaoh Islands.

MAX VILMIO CORRECT .
REBECCA HOLDEN You are to be afforded every courtesy so follow me please .
They walk along the single story extension to the main building adorned with founding residence ofthe ASYLUM, with red and white windows evenly Spaced and Stephen Taylor greets them half way along .
STEVEN TAYLOR We're about to conduct a test in front of a live studio audience .
REBECCA HOLDEN Not only that we're very keen to get the research from professor HANS ZAROV.
STEVEN TAYLOR we've taken the basic ideas from Great Britain's approach to regress the ruton back to their natural state of giant squid .
REBECCA HOLDEN And we've had to order a lot of new hardware for THE SPHERE .You'll find we have 200 residents at the ASYLUM.
STEVEN TAYLOR Encase you didn't realize most of the ASYLUM is underground
The corridor leads on to a wide gantry with a guardrail overlooking a shopping center .
REBECCA HOLDEN We'll give you a personal identification number which we'll see you through for all your needs .
STEVEN TAYLOR Just go to the appropriate department and use your all-in-one code to get what you need.
REBECCA HOLDEN We're at the cutting edge of providing health and happiness for residents .
BRIGHT VILMIO ,MUSGRAVE and SANCHEZ follow Rebecca Holden and Stephen Taylor down the stairwell and join the throng of residents, past ornamental fountain and window boxes towards a travel tube that whisks them in four directions through the asylum .
REBECCA HOLDEN You've arrived in time to see the first episode of THE SPHERE .
They come out into a large auditorium with 300 spectators seated on a high gantry with a large stage in the center .
A 24ft sphere made of clear plastic clear resin is vibrating.
REBECCA HOLDEN Well I'm going to leave you now to host the show, see you at the after show party .
Rebecca Holden goes to the Central the stage.
Stephen Taylor walks around the high gantry And then walks along the steel walkway to his control console overlooking the sphere .

REBECCA HOLDEN Good evening everyone and it seems our test subject is finally ready .
Three lab coated Technicians wheel the subject into the sphere and strap him down into the epicenter .
BRIGHT and VILMIO take seats and VICTOR BRIGHT activates a tablet on the back of the seat in front which has a brochure of sphere and the events to come.
BRIGHT WELL from what it says here they're trying to regress that ruton hybrid test subject back to its natural state.
MAX You mean that's one of the hybrid rutons like the ones we left in the PHAROAH ISLANDS
BRIGHT That's right Max .
MAX So if we just come from MILLIWAYS INCORPORATED on the PHAROH ISLANDS where they can TRANSMUTE them into HYBRID HUMANS then in theory the ruton can have several lifespans.
VICTOR BRIGHT Top of the class Max .
TAYLOR steps from behind a maroon velvet curtain to stand at stage centre .
STEVEN TAYLOR As you can see ladies and gentlemen the ruton is now in the epicenter of THE SPHERE.
REBECCA HOLDEN Our test subject George Sanders was picked up in a fast food restaurant in Chicago where was trying to buy a hamburger.
STEVEN TAYLOR The counter staff and manager made a Citizen's arrest and zebra squad picked him up from the police station .
The lab coated technicians leave the sphere and close the clear plastic door creating a sealed unit and immediately the lights dim and spotlights come on throughout the theater
From his control console Stephen Taylor pulls a leaver and the sphere starts to turn.
REBECCA HOLDEN This process is going to take a whole of 10 minutes as the sphere reaches its top speed of 60 RPM.
At the same time from the adjacent console Mark Greenstreet activates a light show projecting the swiss alps and himalaya mountains onto the SPHERE .
STEVEN TAYLOR Hybrid GEORGE SANDERS in the sphere, creating the illusion of a flight through THE SWISS ALPS and as the sphere reaches its maximum speed of 60 RPM George Sanders is thrown from the epicenter to land on the perimeter of the

sphere .
STEVEN TAYLOR That will stimulate a biological change in him so fingers crossed and thanks to all the retired hotel managers for helping with the sets and props.
VICTOR BRIGHT Presumably they analyzing our research data immediately and are going to create a new hybrid in the in the birthing Chambers from GEORGE SANDERS .
MAX VILMIO I'm not sure Victor I just want to get back to KALDOR
VICTOR BRIGHT Patients is a virtue Max young the Minds fresh ideas especially if we're going to be full members of the galactic Federation.
MAX VILMIO I'LL stay here , and blend in to the flavor of the community, they'll never be up to the standards of the GALACTIC FEDERATION.
As the sphere slows down the videos of the Swiss Alps and HIMALAYAS mountains stops and replaced by spotlights from the high voltade ceiling .
Three lab technicians open the door in the sphere and go in to collect the test subject who is now at the base of the sphere in an alcove and looks like a giant squid with green tentacles .
REBECCA HOLDEN Well how about that it seems that the experiment was a success .
STEVEN TAYLOR Part two of the experiments which will be conducted in the birthing chambers of the science Wing now we have the process from The Pharaoh Islands
REBECCA HOLDEN It seems Milliways Incorporated wanted to have a monopoly on this technology so we sent two agents to collect the research data .
The whole assembly start clapping BRIGHT and VILMIO reluctantly stand up and take a Bow.
STEVEN TAYLOR When George Sanders goes through the ZAROV PROCESS he'll be known as VANESSA BELLAMY and wILL become a stable member of Society .
Steven Taylor joins Rebecca Holden on this stage.
REBECCA HOLDEN Thank you all for coming and thanks again for the Institute of retIred hotel managers for making all this possible. .
STEVEN TAYLOR I'll be joining you all later for a virtual golf in the sports Wing.
mark greenstreet And if you'd like to come back tomorrow we'll see how hybrid Vanessa Bellamy recovers And we'll

also see if he remembers walking into that fast food restaurant and buying a hamburger in the form of George Sanders .
REBECCA HOLDEN Till then this is SPHERE
STEVEN TAYLOR Soon to be syndicated on Japanese television
